

**ALPHA**BIOLABS  
SETTING THE STANDARD

## Is Your DNA Tests reliable?

Do all DNA Testing laboratories guarantee your outcome of the result?

How is it one of the most important tests in your life can be left nonchalantly?

Alpha Biolabs guarantees your outcome of the DNA Result accurate with Highest Standard ISO 17025.

What is ISO 17025?

ISO 17025 is an internationally recognized standard that has been designed and redesigned to meet the needs of the scientific community.

A laboratory that is accredited to ISO 17025 General Requirements for the competence of testing and calibration laboratories, means that its management system and technical competency has been successfully assessed against the requirements of ISO 17025 standard and shown

## Competition Winner

Congratulations to ***Maria Fogg*** of Stephen D Brine Solicitors who is this months Customer Feedback Questionnaire winner.

Ms Fogg is the winner of ?

to be in compliance. Where it differs is that once accredited to ISO 17025 the laboratory can certify that the testing it provides to its customers IS ACCURATE.

It is important to recognise that other ISO certification does not guarantee quality of the DNA RESULTS you get; whereas the ISO 17025 accreditation held by Alpha Biolabs accredited by UKAS is recognised internationally and by Government to provide accurate DNA results.

**Alpha Biolabs are one of only 9 companies in UK to give you accurate DNA results!**

## Alphabiolabs now testing for Mephedrone

---

Alphabiolabs are one of the first UK Laboratories to test for the banned substance Mephedrone!

Legal highs have stirred significant media interest after several recent deaths amongst young people. Legal high sales have risen steadily until a recent spike in sales driven by media coverage. Many online mail-order suppliers even claim to have sold out as a result.

With almost half of the websites selling legal highs based in the UK, the European Union's drug agency has highlighted that the UK is a hotspot for the online trade in legal highs. But with Government efforts to stem the tide, how long will this last? Certainly a point to publicise is that although a drug may currently be "legal", this is not a real indication of safety, as many substances aren't being used for their intended purpose - which can range from plant fertilisers to worming treatments

**MS Fogg is the winner of 2 Fantastic Tickets to see Andrea Bocelli Live in Manchester's MEN in November.**

Congratulations once again from all at Alpha Biolabs, and dont forget to complete your feedback questionnaires for a chance to win one of our fanstatic prizes!

## HASSLE FREE TESTING!!

Alpha Biolabs would love to take all of the hassle away from Drug, Alcohol and DNA testing.

Being a one-stop shop will make things much simpler for you as Alpha Biolabs are the **only accredited laboratory in our sector to offer Drug, Alcohol and DNA testing.**

for cattle.

**Fully qualified nurses in your area** enable us to collect samples direct from the sample donors address – no need to arrange to have the sample donor attend your office or to arrange a GP appointment.

**Split Invoicing** – Let Alpha Biolabs take all of the hassle away from collecting payment from the other party.
